# ZOT jr.

## Architect & Engineers Specifications

The luminaire is a 240 watt LED followspot. The spot diameter shall be controlled by a top mounted lever which opens and closes a nichrome steel iris. The unit shall include a top operated fader and a 5 color dichroic boomerang. A 240 watt LED with heat sink is housed in the rear of the head. Optical quality lenses complete the optical system. The ZOT jr. utilizes an electronic switching power supply. The power supply is integrated into the followspot head. A 12 foot power cord with NEMA 5-15 is included. The ZOT jr. ships with a Lycian manufactured folding tripod base. Units are cooled by a quiet low volume fan. The housing is constructed of extruded aluminum and cold rolled steel powder coated in black and red. The Lycian ZOT jr. will be specified. Only fixtures manufactured in the USA acceptable.
