- * Variable Focal Optics
- * Mechanical Dimming & Optional DMX Dimming
- * Fine Focus Mechanism
- * Internal Self-Cancelling Color Boomerang
- * Includes 4 Legged Folding Base with Casters & Leveling Jacks

SUPERSTAR 600

MODEL 1280

The luminaire is a 600 watt LED followspot. The spot diameter is controlled by a top-mounted lever which opens and closes a nichrome steel iris. The unit includes a top-operated 3 plate sliding fader and a 6 color self-cancelling color boomerang. A 600 watt LED with heat sink is housed in the rear of the head. Optical quality lenses complete the optical system. The Superstar 600 LED utilizes an electronic switching power supply. The power supply is integrated into the followspot head. A 12 foot Power Con[®] power cord with NEMA 5-15 is included. A 4 legged folding base is included. Units are cooled by quiet low volume fans. The housing is constructed of extruded aluminum and cold rolled steel and is powder coated in black and brown. The Lycian Stage Lighting Superstar 600 LED shall be specified. Fixtures are manufactured in USA
