## Specifications:

The Zot Jr. is a 240-watt LED followspot featuring a top-mounted lever that controls the spot diameter via an A4 steel iris. It includes a top-operated fader and a five-color dichroic boomerang for versatile lighting effects. Powered by an electronic switching power supply, the unit has the power supply built into the followspot head. A quiet, low-volume fan ensures efficient cooling, and the housing is made of extruded aluminum and cold-rolled steel, finished with a black and red powder coating.
